

## *Ex* Air Pallet® - 10

Ideally suited for export air shipments or one way trips, the ExAir Pallet – 10 is a lightweight nestable pallet offering outstanding economy along with strength and rugged durability. Advanced thermoforming technology is used to ensure a robust pallet that is consistent in appearance, weight and dimensions. The space saving capacity and lightweight design combine to reduce shipping costs producing the greatest benefit – a quick return on investment.

### PALLET DESIGN

- Single Sheet construction with excellent weight to load capacity
- Manufactured from High-Molecular weight, High-Density Polyethylene Co-Polymer
- Drain holes in legs to deter collection of liquid
- Nestable for increased storage and movement efficiency
- Clean, Smooth Surfaces

**ISPM 15  
EXEMPT**

### PALLET FEATURES

- Lightweight (4.54 Kg) for reduced shipping costs
- Conveyable
- 4-way entry for ease in handling with Fork Trucks and Pallet Jacks
- Reusable for added cost savings
- Impervious to weather, including extreme heat and cold
- No Heavy Metals – meets RoHS Directive 2002/95/EC
- Environmentally friendly and 100% recyclable
- ISPM 15 Compliant

### PALLET OPTIONS\*

- Custom Colors or Stripes
- Imprinted with Company Logo
- Custom Embossing
- Fire Retardant – Halogen & Bromine Free

\*Available in larger volumes
